

Home Controller HC-200 Affordable Home Control

The Control4® Home Controller HC-200 makes it easy for everyone to add intelligent control to your home at an affordable price. The HC-200 is so affordable, you can enjoy on-screen navigation and full local control for every high definition television in your entire home. The HC-200 also provides full home-automation for smaller homes, by effectively controlling home theater, multi-room music, lighting, temperature, security and more.

With the HC-200, you are no longer tied to a coffee table cluttered with remotes. Instead, a single remote and easy-to-use on-screen interface allow you to enjoy the same intuitive Control4® navigation on every video display in your home. Adjust and control the lights either individually or collectively. Manage your home theater system. Free your digital music collection and easily stream it to any room throughout the home. Check the status of your doors and windows, and adjust the thermostat – through convenient, easy-to-use, powerful on-screen menus.

It's all part of the Control4 vision. We bring the benefits of a truly automated home to more people with solutions that are affordable, easy to install and designed to adapt to any home or lifestyle.

Features and Benefits

Smart Design

- **Compact footprint** — Designed with today's super-thin flat panel displays in mind. Fits easily behind any Flat Panel using the multi-position mounting plate (included).
- **Rack Mountable** — The optional 1- and 2-unit rack mount kits are 1-U high, rack-width brackets that allow HC-200's to be centralized in the equipment rack without taking up a lot of space.
- **Beautiful Design** — The HC-200 offers an attractive design that looks great where ever it is displayed.

Powerful Automation Controller

- **Replaces multiple remotes** — Allows for replacement of virtually every other remote control in the house.
- **Complete home control** — Control music, lighting, temperature, blinds and more.
- **Complete theater control** — Multiple IR and serial outputs make controlling the entire home theater easy.
- **Standards-based control** — Devices throughout the home are controlled via communication over wireless ZigBee™ (802.15.4) mesh networking, Ethernet, or WiFi (adaptor optional).
- **Seamless integration** — Works with all Control4® components and a comprehensive array of third-party devices.

Easy to Setup and Use

- **Control4 Easy Setup Program** — Interview-style wizard to guides you through the installation process.
- **Multiple interfaces** — Works with Control4® Touch Screens, Keypads or included System Remote Control (SR-150).
- **High Definition** — HD on-screen navigation provides large, bright, clear 16x9 graphics.
- **Automation for the price of a universal remote** — Allows users to enter the world of home automation with lower entry costs.
- **Large automation projects** — The cost effective solution to put an HD on-screen on every HDTV in the house.

*Select a movie from your DVD changer as the TV is **automatically** powered up and the correct video input is selected. Then **dim** the lights and **adjust** the temperature of your home theater all with simple touches on a single remote control.*
